# RM IT SOLUTIONS

## About RM IT

*(Your Satisfaction- Our Mission)*

RM IT Solutions is an Information Technology & Consulting Company, engaged in providing a comprehensive set of value added custom application development & services in the area of Windows System Utilities, Client/Server, Web, e-commerce & n-tier applications.

RM IT consists of a team of experts, constantly working hard to make life simple by developing and customizing products to be user friendly, productive, and of superior quality. RM IT assures strategic planning and careful analyzing of every product, which empowers the customers to achieve their vision and organizational networks. Complete satisfaction of the customers is our prime focus.

We deliver technology & business consulting, application services, integration services, software development & maintenance, testing and IT Infrastructure services. Delivery of our software can be either offered as a product or as a service. With the diligent team that has domain expertise in System Utility Software, CRM, Microfinance, Insurance, Loyalty, Education and Accounting, RM IT has successfully delivered products to its clients, and is looking forward to be a part of many more transformative journeys.

## Products

*(Work hard to deliver the best)*

RM IT caters to the needs of the clients in various sectors including Education, Finance, Manufacturing, IT, Transportation, Hotels, Employment, Marketing, Consulting, Energy, Life Sciences, Health Care, Social Networking, etc. Some of the Solutions purchased, licensed, and maintained by RM IT are:

**mfExpert:** A powerful tool for institutions like Micro Finance, to keep a track of the day to day transactions in the organization.

**MfExpert- Loan Monitoring System:** This solution is a comprehensive, fully integrated solution that offers the flexibility to keep a track of the daily processes in the Loan Management industry. It includes three major segments namely: Gold Loan Management, Personal Loan Management, and Group Loan Management.

**MfExpert- Financial Accounting:** Its frame work looks into simplicity, reducing operating cost, efficient User interface, simplifying calculations, reducing time and usage of paper, and many more! Regardless of the size of the company, this module is designed to increase productivity with minimum man power and input.

**HR and Payroll System:** Provides comprehensive and rich modules that meet the requirements of your HR and Payroll functionalities and regulatory requirements.

## Internal Audit

**System:** This solution can be used for any type of audit. Its

advanced capabilities allow organizations to implement the industry best practices for efficient audit execution and ensure integration of the audit process with the risk and compliance management system.

## eSkool:

It empowers institutions with a dynamic web portal with dashboard for Students, Teachers, Management and Parents which covers all administrative aspects. It includes portals for Students, Teachers, Parents, and Administrators.
